December 2005

Heavyweight Contract Tariff Plans

These are designed for people who rely heavily on their cellphones and therefore need loads of talktime.

All rates include VAT

Mediumweight Contract Tariff Plans

These are designed for people who use their cellphones regularly but can often make their calls during Off-Peak time and therefore need less talktime than the "heavy" cellphone user.

All rates include VAT

Lightweight Contract Tariff Plans

These are designed for people who don't use cellphones often, instead they use their phones more for emergency situations, quick conversations or simply to send SMSs.

Please note: Even though Messenger offers an exceptionally low rate of just 22 cents per SMS, a rate of R4.00 per minute applies to voice calls. We therefore recommend Messenger to people who mostly want to send SMSs and rarely use their cellphones for speaking.

All rates include VAT

Top Up Contract Tariff Plans

For Customers who want the cost benefit of Contract Tariffs but want to stay in control, Top Up packages are for you. A rand value is credited into your account to use how you want. When your monthly credit is depleted you can recharge with Vodacom recharge vouchers. Top Up is the ideal way to manage your spending.
